The Art of Hospitality

Philosophy of the well-travelled proprietor Otto E. Wiesenthal: „Create the surroundings in such a way that you personally love to spend your time there.“

Art – combined with old fashioned charm and uniqueness – the secret of success of the boutique hotel Altstadt Vienna.

Your check-in - a warm and friendly welcome, your room - a unique style retreat and the lobby - a cozy red salon with open fireplace. Art surrounds you, from reception to rooms to exhibitions in the Red salon.

A home for the soul

„Living like the Viennese“, can be read in the guestbook. The owner of the Altstadt Vienna, Otto E. Wiesenthal has realised his dream after travelling for more than 20 years.

The Altstadt Vienna occupies a converted Patrician house firmly entrenched in one of Vienna's oldest districts, the Spittelberg, which offers both, a historic ambiance and a close location to the city. It's a short walk to the next subway station, and only five minutes to Vienna's best shopping street, the Mariahilferstrasse.

Feel yourself at home because you are at home.

Each of the 42 exquisitely decorated rooms and suites has a touch of the past. All our rooms have been designed to meet individual needs, none of them is alike.

Easy chairs, plump floral sofas, classic and design furniture, high ceilings, honey-coloured parquet floors, unusual light objects and contemporary art transform each and every room to your personal livingroom.

The English-style Red Salon accomodates the superb breakfast buffet as well as a bar, where you can relax next to the open fireplace. In the afternoon we serve complimentary tea and cake for our guests. It's our pleasure to arrange tickets for opera, theater and concert.
